

## MANUFACTURING & ASSEMBLY

*Adding the final piece of the puzzle*

**Deltatee is adding 4000 sqft. more manufacturing space to better serve our clients.**

- ★ Build to Order or Custom Designs
- ★ Full or Partial Turnkey
- ★ Low to Mid Volumes
- ★ Logistics and RMA's Control
- ★ PCB Assembly and Test
- ★ Panel Layout and Wiring
- ★ Class I Div I & II Systems
- ★ Sensors and Sample Systems
- ★ Downhole Instruments
- ★ RF and Wireless Systems
- ★ Alarm and ESD Systems.

When you need to go beyond a printed circuit board or box build into a fully functional control panel, Deltatee can help. With over 35 years of experience, our quality and workmanship is second to none. We can build to your print or assist in creation of original designs.

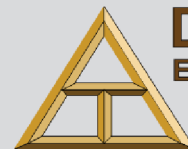

Our customers come from a wide array of industries and their manufacturing needs have never been single focused. Neither has ours. Deltatee employs unique manufacturing techniques, such as building panels in sub-assembly layers, as a means to reduce costs, increase accuracy, and optimize productivity and to build the highest quality control panels available.

Whether your control panel is operating 240V pumps or monitoring sensitive instruments on critical systems, Deltatee has the skills to help design and build your next Control Panel project.

We also offer engineering, electronic, electrical and software design services tailored to fit your needs. Contact us to discuss how we can work together to save you time and money.

## Our Quality Policy

**In partnership with our associates, customers and suppliers  
we strive:**

- ★ to provide an environment of respect & cooperation, in the spirit of family harmony.
- ★ to assemble a unified professional team focused on open communication that uses documented, accurate information to make informed decisions.
- ★ to develop high quality products that meet market needs, via accountable, committed management of the Stage Gate Approach.
- ★ to recognize that feedback in concert with regular reviews, ensures continual improvement.
